

Since 2013, PLUGS (Patient-centered Laboratory Utilization Guidance Services) has been a leader in the laboratory test stewardship industry. The PLUGS Summit is the largest laboratory test stewardship meeting of its kind.

As a non-profit, PLUGS provides comprehensive resources and customizable solutions that improve lab testing processes across all stakeholder groups. Our membership network includes hospitals, health systems, laboratories, insurers, patient advocacy groups, health and biotechnology companies. PLUGS has a proven track record of ensuring patients get the right test at the right time, and improving the likelihood that medically appropriate tests are covered by health plans.

People are the power  
behind PLUGS.

June 15 –16, 2023

# Join Us for the PLUGS Summit

Every year, a diverse group of stakeholders gather at the largest laboratory test stewardship meeting in the country to learn practical tools for laboratory stewardship program development and insurance alignment that will apply to hospitals, health systems, reference labs, insurance payers, and patients.

As a supporter, you can help to shape the national conversation on insurance policies and fair reimbursement, help us to create standards for laboratory stewardship programs, and demonstrate your support of lab test stewardship to clients and stakeholders.

At the PLUGS® Summit, your company will be able to gain insider access to lab industry players and trends, create long-term mutually beneficial relationships with clients and help to improve the quality of care that patients receive nationally.

## 2022 PLUGS Summit Attendees

167 Attendees in Total

*"I attended and was absolutely blown away by the content. What I have learned will only strengthen my advocacy with payers on how important genetic testing is and how our robust stewardship program ensures the right test at the right time for the right patient."*

- Summit Attendee

## Gold Supporter

\$18,000+
